Anti-Defamation League (ADL) used HIDDEN MICROPHONES to spy on Americans in their own homes in search of “toxic speech”

The ADL's goal with this AI spying operation is to catch players who engage in "toxic speech," "hate speech," "discriminatory language, harassment and more," reports indicate.

According to *Infowars'* Alex Jones, this high-tech invasion of privacy "signals the birth of a totalitarian regime that would make Hitler's Nazis envious."

"So, the Alexa in your house is listening to you, the Google assistants are, and it turns out the ADL basically programs it and controls it," Jones explained in a recent segment on "The Alex Jones Show" – *watch the video below to learn more.*

"It's the most Nazi thing I've ever seen. The Nazis surveilled people, censored people, boycotted people, put Jews and other people in ghettos, wouldn't let them have businesses, they de-banked the Jews."

As we march ever-closer to full-blown World War III, the ADL is actively constructing a totalitarian police state to try to stop people from saying mean things about Jews, using AI as its digital enforcement army.

"It's a globalist crime syndicate," Jones says about the ADL and its partners. "It's a mafia that simply hides the entire 'new world order' takeover behind a civil rights organization."

No longer are the free speech haters simply going after what they consider to be "hate" speech, which in and of itself is a misnomer. Now they want to put an end to all "toxic" speech, whatever that means.

According to Jones, the ADL is a "multinational Mossad-CIA-Mi6 group that has private intelligence officers in most police departments, even in small towns."

"They put in a lot of the judges and their job is converting America to absolute tyranny. They're heavily involved with the new UN treaty, which ends free speech as we know it."

After purchasing Twitter, taking it private, and turning it into "X," Elon Musk started the lengthy process of uncovering everything the ADL and other deep state organizations have been doing for years to control what gets said and shared on social media.

Via the Twitter Files, Musk has been dropping bombshell after bombshell, and more recently announced that his company has no choice but to sue the ADL for defamation, based on what has been uncovered.

"They discovered internally that the ADL was basically running Twitter as a go-between for the FBI and the CIA," Jones says. "Musk has promised to release those documents next week. A lot of them have already come out in Congress – this is totally illegal."

It would seem as though the ADL's days are numbered. Musk has come out swinging ever since his Twitter takeover, and he appears to be leaving no stone unturned when it comes to holding every member of the Censorship Industrial Complex accountable for assaulting the First Amendment.

The ADL is a toxic organization that must be abolished to preserve Americans' constitutional rights. Learn more at [FirstAmendment.news](https://firstamendment.news).

It's because the people have all rot away, they've become worthless zombies. It's Saturn. 90% of world pop are heavily afflicted by that planet and they will never understand it. Who hasn't yet will stagnate, who's stagnated will degrade, and then they perish to foolishness.
